EXAMINER'S AMENDMENT & COMMENTS

Election/Restriction

1. Newly submitted claims 51, 58, and 59 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Claims 39-50 and 52-57 are drawn to a game system and method for identifying a player of a game machine and having a server connected to the game machine (re)configure the game machine based on player preferences regarding various parameters of the game. Claims 51, 58, and 59 are drawn to a system and method for use with an ATM, which would require a divergent search, and also do not specifically claim changing the nature of the transactions with the machine.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 51, 58, and 59 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP §

Art Unit: 3721

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Steven Santisi on November 30, 2000 (3a) and December 4, 2000 (3b).

3. ~~The application has been amended as follows:~~

- a) ~~Claims 51, 58, and 59 have been deleted as being drawn to a non-elected invention.~~
- b) ~~Claims 52-57 are canceled since they duplicate claims from the parent application.~~

4. ~~The application has been further amended as follows:~~

~~The first two words of the title, "Method and", have been deleted, since all allowable claims are directed toward a game system.~~
